

Small & Powerful

Your compact document scanner range at a glance

Distinctively small

The compact document scanners are ideal when space is limited. Measuring slightly wider than a sheet of A4 paper, you can free-up desk space and get more organised at the same time.

High performance

Simply put your documents into the ADF (Automatic Document Feeder) and let it do the hard work for you. Scanning up to 25 sheets per minute your documents can be saved quickly to PC, email server, USB host, network and FTP/SFTP.

Flexible media handling

Our re-engineered paper feeding system provides reliable and durable document scanning. The plastic ID card slot has also been designed with the addition of a switch to engage the scan slot, enabling ISO ID-1 plastic card types to be easily fed in and out from the front.

Make everyday document scanning simple with Brother

Whether it's utility bills, business documents or contracts - in today's digital age, we want to save our data and have access to it instantly. Paper documents can be easily scanned and transformed into digital files, reducing the amount of paper you have around the home or office.

Portable compact document scanner

- 25ppm/50ipm, 2-sided colour scan speed
- 20 sheet Automatic Document Feeder (ADF)
- Powered for Portability with USB 3.0 Micro-B
